

Operational environment

Mapping our sociotechnical system

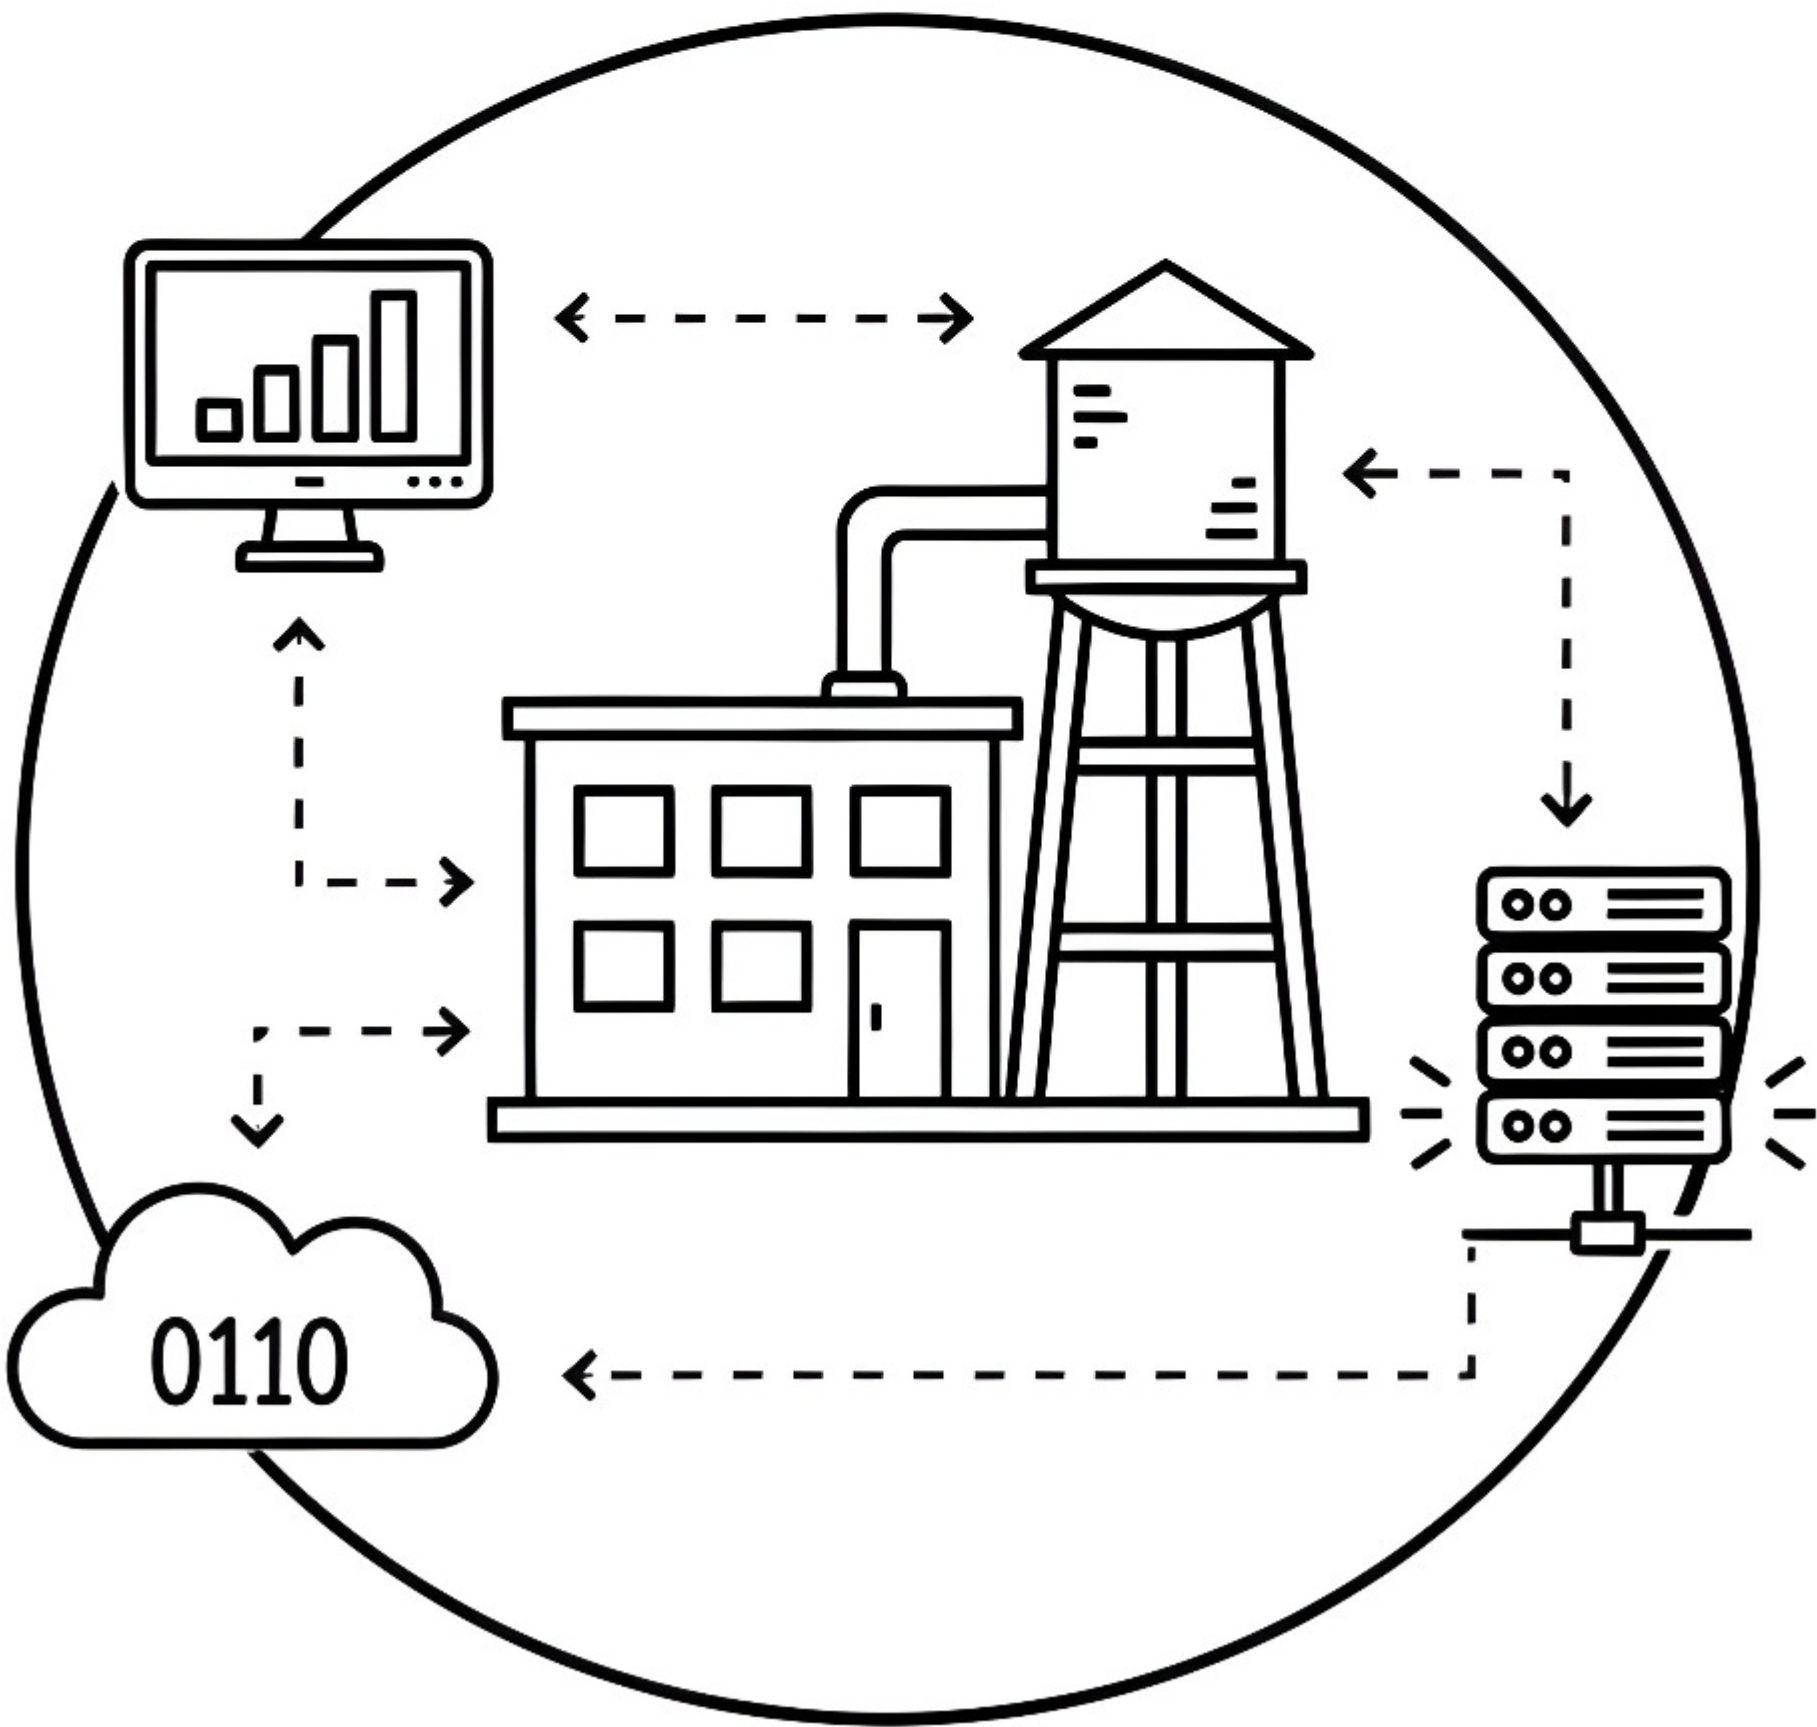

SOCIAL ENVIRONMENT (People and networks)

Who are the critical people, roles, or subcontractors for our operations?

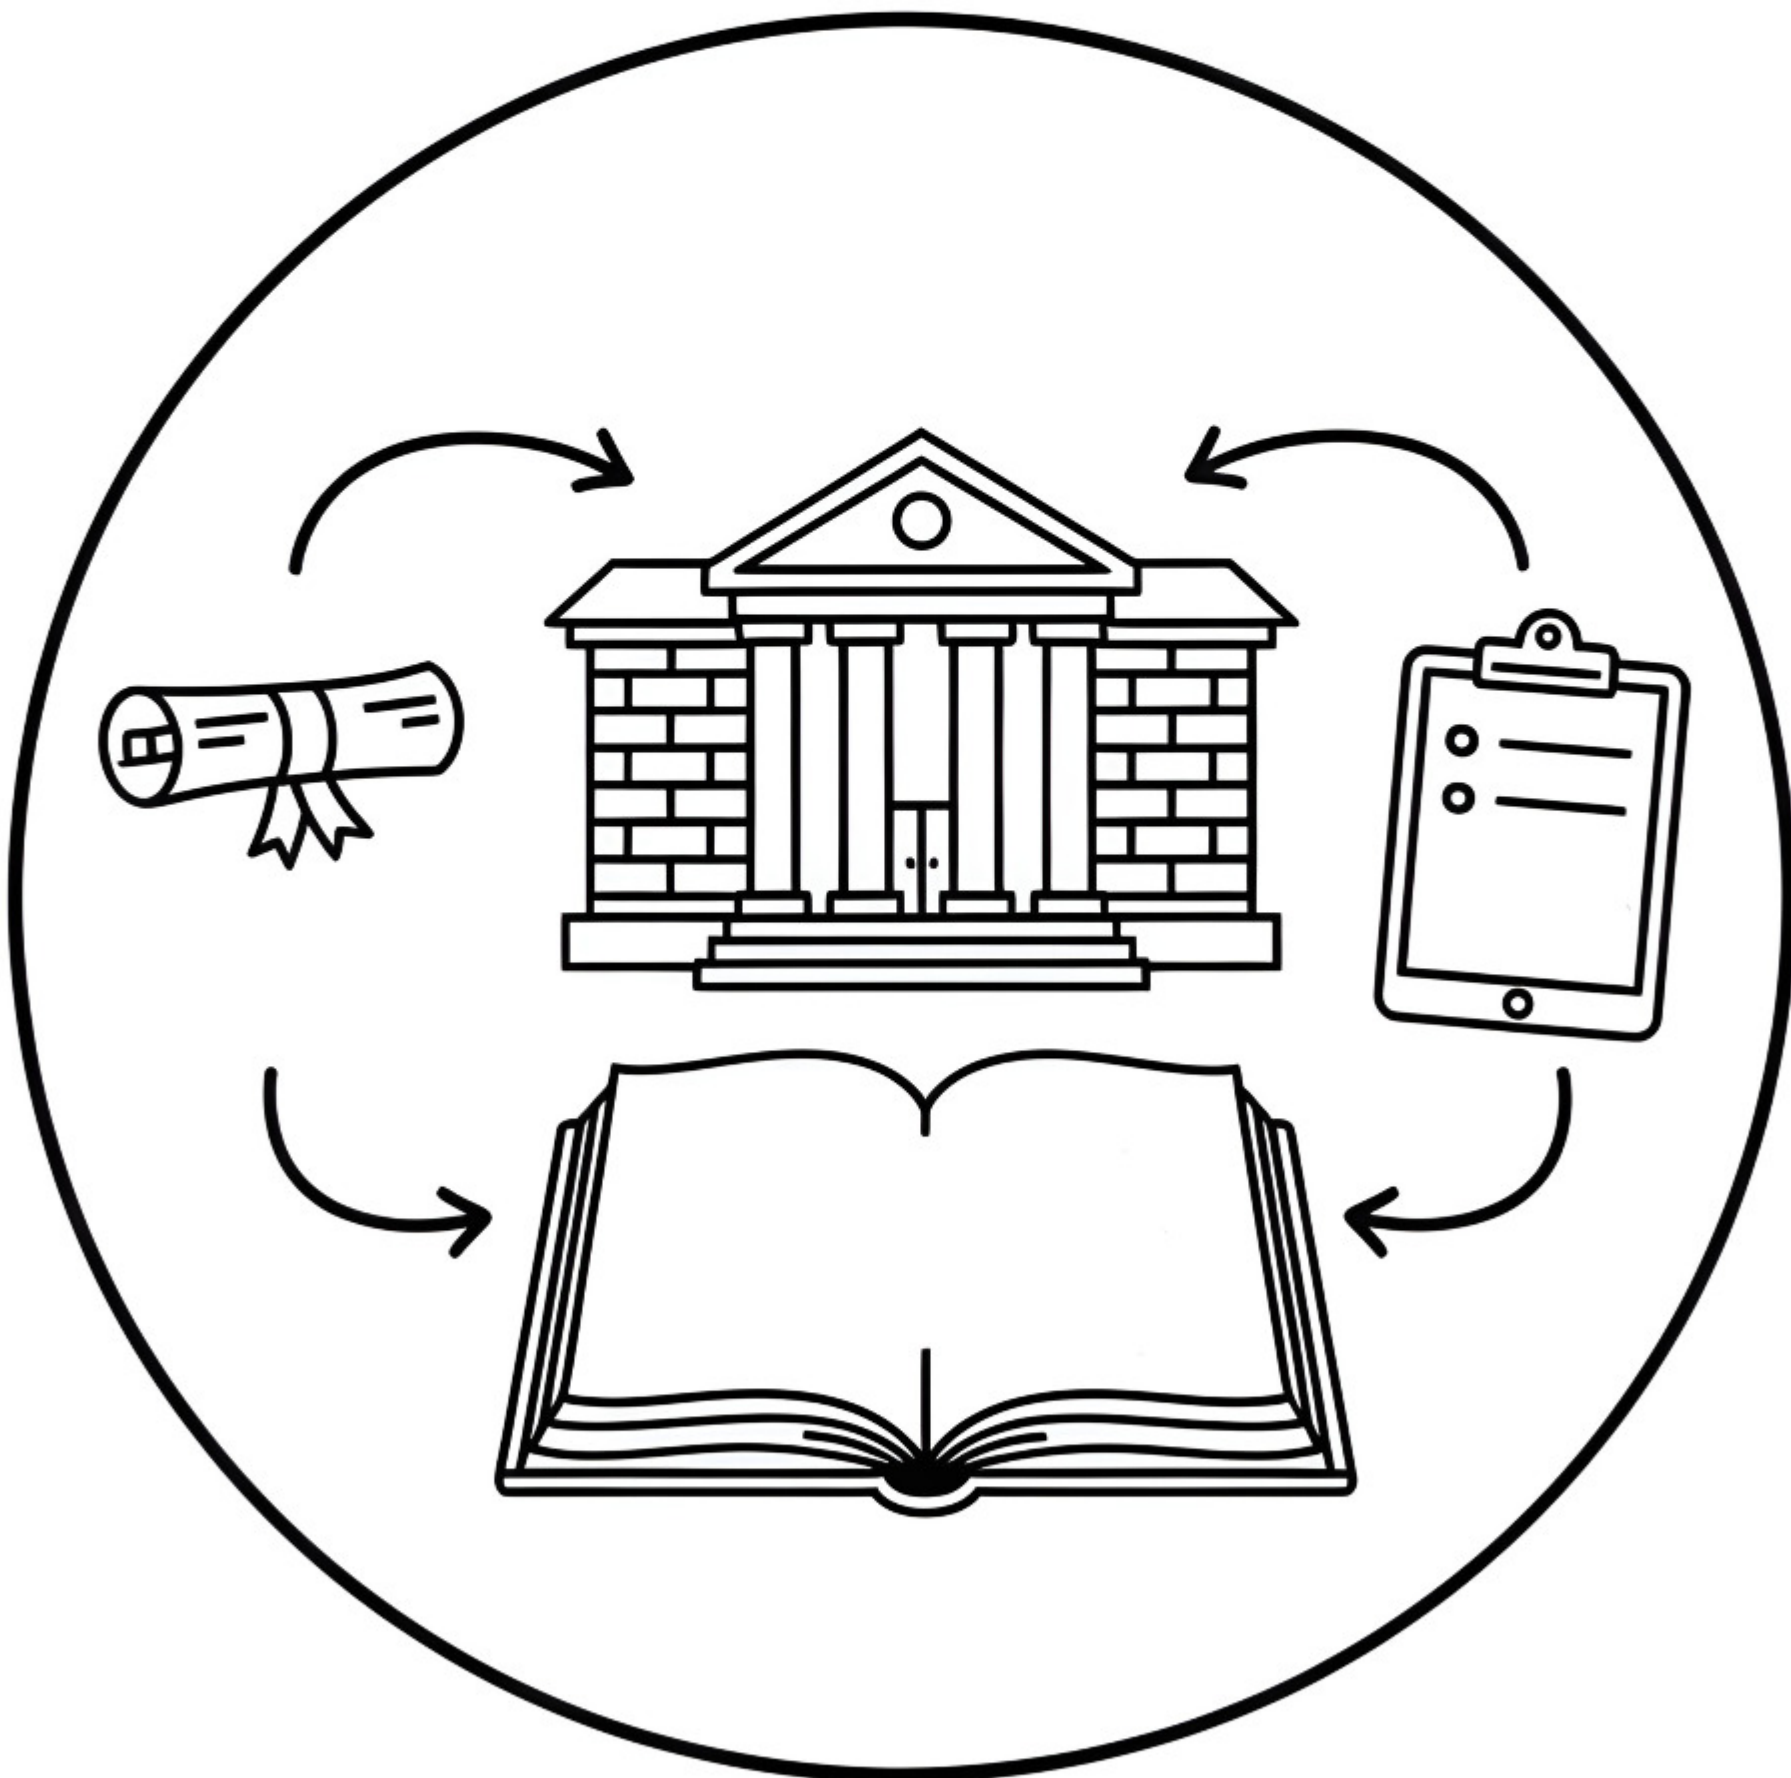

TECHNICAL ENVIRONMENT (Locations, equipment, systems)

What technical solutions enable our operations?

REGULATORY ENVIRONMENT (Laws and guidelines)

Which laws and other guidelines direct our work? What laws are being prepared?

CRITICAL TOUCHPOINTS (Where humans and technology meet)

Identify processes that can't be completed if either a human or a technology becomes unavailable
